

BRAMPTON COLLEGE

INDEPENDENT SIXTH FORM COLLEGE

FINAL DESTINATIONS

ACADEMIC YEAR 2024-2025

Final Destinations 2024-2025

The majority of Brampton students achieve their first-choice university place, progressing to a wide range of institutions, with most studying highly competitive courses at Russell Group universities. These outcomes reflect their hard work and ambition as well as the exceptional teaching and the highly personalised, hands-on support they receive throughout their time at the college.

Our highly experienced staff and dedicated UCAS and Higher Education team work closely with students at every stage of the application process - from exploring course options and shaping strong personal statements, to preparing for interviews and admissions tests. This tailored guidance is highly valued by our students and plays a key role in securing outstanding outcomes.

We are particularly proud of our track record in supporting students to secure competitive places to study Medicine, Dentistry and Veterinary Science. Applicants to these courses benefit from specialist preparation programmes, expert mentoring and extensive interview practice, ensuring they are confident, well-prepared and successful.

Beyond securing excellent destinations, we help students develop the wider skills universities are looking for. At Brampton, students are trusted with the independence to develop, using the college as a vital stepping stone between school and university. They leave us as independent, resilient global citizens, ready to take on the challenges of university life and later life.
